Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The finality of the rejection of the last Office action is withdrawn. The indicated allowability is withdrawn in view of the newly discovered reference(s) to Palmaz (5,382,261). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3, 5, 7, 8, 10, 12, 15-18, 21-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Palmaz '261 in view of Frantzen et al. (5,843,164). Palmaz discloses all the limitations of the claims except for a presence of a plurality of spokes that extend rearward from an interior chamber and toward an inner wall of a blood vessel. Palmaz discloses an insertion device (90) having a member (92) inserted into a pilot hole (78) of plug (50). Plug (50) has tapered outer surfaces at the area of a connection member (66) and at the end (73), the plug has an inner corrugated surface within an interior chamber because the stent having variable expanded diameter D', D''. Although, Palmaz does not disclose a plurality of spokes that extend rearward from an interior chamber or stent (65) and toward an inner wall of a blood vessel. Frantzen et al. disclose stent with plurality of spokes as in order to better secure an implant to a blood vessel wall. Therefore, it would have been obvious to one having ordinary skill in

the art at the time the invention was made to employ a plurality of spokes in view of Frantzen et al. into Palmaz's stent in order to securely affix the ends of Palmaz's stent to a blood vessel wall and prevent the implant from migration.

Allowable Subject Matter

4. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art fails to disclose the apparatus comprising in combination with other limitations of the claim, a spring and lever as claimed.

Conclusion

5. Applicant's amendment filed 3/9/05 necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
